+91-9870217238 — Noida — hritiksingh1029@gmail.com — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

SUMMARY

Software Engineer specializing in full-stack systems using **Java, Spring Boot, Angular, and Oracle SQL**. Experienced in building **secure microservices**, optimizing backend performance, and automating inventory workflows. Hands-on with **GenAI (LLM + RAG chatbot)** with a focus on **scalable, production-grade application design**.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, Bash

Backend/Frameworks: Spring Boot, Spring Security (JWT), Hibernate/JPA, REST APIs, Microservices, RBAC, JUnit

Frontend & Data: Angular, React.js, HTML, CSS, Bootstrap, Oracle SQL, MySQL, MongoDB, Redis, Elasticsearch

AI/GenAI: LLM Integration, RAG, Semantic Search, LangChain, Hugging Face, Sentence-Transformers, Vector Databases (Qdrant), Prompt Engineering

DevOps & Tools: Docker, AWS, Git/GitHub, GitHub Actions, Maven, Postman, Jira

PROFESSIONAL EXPERIENCE

Software Developer

Jan 2025 - Jan 2026

Bosch Global Software Technologies (BGSW) – A Bosch Group Company, Hyderabad

- Designed **REST APIs** in a **Spring Boot**-based microservices architecture, reducing backend response time by **25%**.
- Enhanced API security by implementing **CAPTCHA validation** alongside **JWT-based authentication** using **Spring Security**, reducing automated bot login attempts and unauthorized access by **40%**.
- Optimized database interactions using **Hibernate (JPA)** with **Oracle SQL**, improving query performance and reducing average API latency by **25%**.
- Integrated a **LLM + RAG-based chatbot assistant** into the application to deliver context-aware workflow Q&A over enterprise data, improving answer accuracy and relevance by **65%** and reducing onboarding/support effort by **20%**.
- Collaborated within an **Agile Scrum** team using **Jira**, contributing to sprint planning and delivering features with a **95%+ sprint completion rate**.

Engineer 1

Jul 2024 - Jan 2025

Vivo Mobile India Pvt. Ltd., Greater Noida

- Implemented **JUnit-based testing** for Spring Boot services, achieving **90%** coverage and reducing bug reports by **25%**.
- Accelerated **Oracle SQL** performance through query tuning and indexing, improving database/API performance by **40%**.
- Standardized robust **API validation + exception handling** using **GlobalExceptionHandler** and custom errors, improving backend reliability and reducing failures by **35%**.

TECHNICAL PROJECTS

OrderCraft – AI-Enabled Inventory & Order Management Platform ([Project Overview](#))

Tech Stack: Java, Spring Boot, Spring Security (JWT), JPA, Oracle SQL, Angular, Sentence-Transformers, Qdrant, OpenAI

- Architected and developed a full-stack order and inventory system supporting end-to-end workflows, real-time stock visibility, and secure role-based operations, boosting processing productivity by **40%**.
- Engineered an **LLM-powered chatbot** using **RAG architecture**, **FastAPI**, and **OpenAI**, streamlining internal data discovery and saving **10+ hours per week**.

Biometric-Based Transaction Device

Tech Stack: Arduino, R307 Fingerprint Sensor, ESP8266, Java, Spring Boot, Oracle SQL, Python (Anomaly Detection)

- Built a fingerprint-based cashless payment system for secure, contactless transactions, reducing processing time by **30%**.
- Implemented a behavioral anomaly detection module with a real-time monitoring dashboard using **Spring Boot** and **Oracle SQL** to flag unusual transaction activity.

EDUCATION

Bachelor of Technology in Electronics & Communication Engineering

Aug 2019 - Jul 2023

G.L Bajaj Institute of Technology and Management

CGPA: 7.8

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle University (2025) ([Certificate](#))
- Advanced Computing & Software Development Training** – Centre for Development of Advanced Computing (C-DAC), Noida (2022)
